PROFILE

Experienced Data Engineer with expertise in building and optimizing data pipelines using Python and Spark, complemented by AWS, Snowflake, and Power BI certifications. Proficient in collaborating with data science teams to implement robust and scalable data solutions. I have been enhancing my skills in big data technologies and cloud platforms to drive efficient data processing and analysis.

SKILLS

- **Programming Languages:** Python, SQL, Java, JSON, PL/SQL, SnowSQL.
- **Data Processing:** AWS, Snowflake, dbt, Apache Spark, Hadoop, Kafka, Airflow, NiFi.
- **Databases:** MySQL, PostgreSQL, MongoDB, Redshift, DynamoDB.
- **Tools:** DataGrip, IntelliJ IDEA, Visual Studio Code, Terraform, Snowsight.

WORK HISTORY

Radical Software

Software Engineer | India

Nov 2016 - May 2021

- Designed and implemented **ETL** processes to extract, transform, and load data from various sources into data warehouses, ensuring data quality and consistency.
- Leveraged **SQL** and **Python** to clean and analyze large datasets, resulting in a 20% improvement in data accuracy and consistency across departmental reports.
- Developed and maintained interactive dashboards using **Power BI**, providing real-time insights and visualizations that empowered cross-functional teams to make data-driven decisions, leading to a 15% increase in operational efficiency.
- Performed detailed data analysis to identify trends, patterns, and insights, providing data-driven recommendations to business units.
- Designed and implemented data integration solutions, utilizing Apache **Kafka** for real-time data streaming and Apache **Spark** for large-scale data processing.
- Automated ETL processes using Apache **Airflow**, reducing manual intervention and improving data pipeline reliability.
- Administered and optimized SQL and NoSQL databases (MySQL, PostgreSQL, MongoDB), improving query performance and reliability.
- Deployed data solutions on AWS, including data storage, processing, and analytics services.
- Developed table schemas, standardized column names, and performed data cleaning with Python. Implemented continuous data quality checks, improving data monitoring tasks by 50%, allowing the team to focus on other critical tasks.

PROJECTS

Spotify ETL Pipeline Using AWS and Snowflake

- Developed an end-to-end ETL pipeline that extracted Spotify playlist data, stored raw data in S3, performed data transformations, and moved cleaned data to another S3 bucket.
- Utilized Snowflake for staging and copying data into respective tables, and implemented Snowpipe for automated data loading, enabling efficient analytics.

ETL Pipeline Using AWS

- Designed and implemented a scalable ETL pipeline using Python and AWS services (S3, Lambda, Glue, Step Functions, CloudWatch) to extract, transform, and load Spotify API data, ensuring efficient data processing and real-time transformation.
- Utilized Amazon Athena for querying processed data in S3, enhancing insights and reporting.

BurgerBee | Amazon CloudWatch, Facebook Messenger App

- Developed and integrated an Amazon **Lex** chatbot with kommunicate.io and AWS **Lambda** on a simple webpage.

Portfolio Website

- Deployed a secure static portfolio website on AWS utilizing **Amazon S3** for hosting, **Route53** for domain management, AWS Certificate Manager for SSL/TLS encryption, and **CloudFront** for content delivery and caching.

EDUCATION

DePaul University, Chicago, IL | Master of Computer Science

Aug 2021 - Nov 2023

Course Work: Web Applications, Applied Algorithms and Structure, Database Programming, Distributed Systems.

GPA: 3.75/4

Pune University, Pune, India | Bachelor of Engineering in Information Technology

Jun 2012 - May 2016

CERTIFICATION

- AWS Certified Solutions Architect – Associate | AWS Certified Developer – Associate | AWS Certified Cloud Practitioner
- SnowPro Core Certification |

INTERESTS

- Reading Books (Favorite Books: Greenlights, Max Out, Atomic Habits, Rich Dad Poor Dad, Relentless, the 5AM Club, Think and Grow Rich)
- Volunteer Work: Chicago Animal Care and Control (CACC), National Association of Asian American Professionals (NAAAP), LASSO Chicago, LCWW Pleasanton, Alameda County Fair Pleasanton (SummerFest 2024).
